DREAMSCAPE

International Exhibition Imaginary Realism

Imaginary realism from 15 countries International exhibition and book presentation

The exhibition Dreamscape features paintings from over 50 contemporary masters in imaginary realism during eight short, but spectacular days. Imaginary realism from more than 15 countries is represented in this major exhibition. During the opening reception the third edition of the book Dreamscape will officially be presented with the renowned artist Lukas Kandl as the guest of honour. A special guest and representative of the realism movement in The Netherlands will also receive the very first copy of the book.

Dreamscape unites art movements like magic realism, fantastic realism and surrealism under the collective name Imaginary Realism and brings them with various projects to the worldwide and well deserved attention.

We would like to invite you to the Dreamscape exhibition and the opening reception on Saturday the 29th November. Many participating artists will be present at the opening.
